

The Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear The Federal Communications Commission,

In your new leadership role as Chair the FCC. , I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). We need this plan to keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance.

Let's expand who pays into the USF so that other technologies - not just phones - pay into the system.

The Keep USF Fair Coalition's "Fair Share Plan" was submitted to the FCC on January 31, 2005 to do just that.

As a small business owner, I urge you to keep the USF fair, and adopt the Fair Share Plan.

cc: Marlene Dortch, Secretary

Sincerely,

Stephen Estabrook
